The only good fishing game on Steam. #ChangeMyMind. best game i've ever played. Got tricked by all the nostalgia reviews, this game is pure trash lmao. Bring back good memories from the 1997 video game.. Literally the best amount of money i have spent in my life, this game is truly a masterpiece. In this game you play as Blonde Fisherman, who catches bass. You can catch said bass with over 7 lures! You can also visit several High Resolution destinations like: Lodge, Dam, and Lake. This is easily the best game I have ever played and will continue to play for the rest of my days on this planet.. Not Bad, Worth the $1 I payed for it. A Simple. fun Fishing Game. The Controls however could definitely use some work
